Affirm public info: I agree

Regarding: Congressional

Message:

Please do not redistrict Texas. This special session would be better focused on flood preparation, mitigation, warning, and education.

Speaking of Education, we need our federal funds allotted to come home to us: push back against the rescissions.

Our power grid

needs stabilization, and energy hog industries could be required to provide energy, rather than receive “incentives” from public funds.

Drought and water management is always critical. Redistricting is not, especially when the impetus is \*not a new census, but political pressure from Washington\*.
