Message:

This committee seems to have been formed specifically to gerrymander districts and disenfranchise voters in a blatant abuse of power, instigated by Washington, not Texans, and not in the interest of Texans. Redistricting should be done only in response to changes in population as determined by the decennial census, not at the whim of the majority party in Washington.

As a professional civil engineer, I would prefer that the Senate be focused on infrastructure resilience and addressing life, health, and safety after the tragic flooding in Kerr County, rather than participating in the weakening of democracy that the current administration is intent on inflicting on our country and state.

For the sake of preserving our strong democracy, and the independence of our state government, please quickly end this committee on redistricting and get back to governing for Texans.

Thank you.
