Affirm public info: I agree

Regarding: Congressional

Message:

To the Members of the Texas Senate,

I am writing to strongly oppose the current effort to redraw Texas legislative and congressional maps only four years after the last redistricting process. Redistricting is intended to occur every ten years, following the release of U.S. Census data, to ensure fair and accurate representation. Undertaking this process mid-decade—absent any significant demographic shifts or court orders—undermines the integrity of our democratic system.

The proposed changes appear to be designed to entrench partisan power rather than reflect the actual makeup of our state. Texans deserve fair representation, not gerrymandered districts that dilute the voices of entire communities for political gain. Redistricting should serve the people, not the interests of a single party.

I urge you to reject any map that is drawn to favor one party over another and to respect the standard 10-year redistricting timeline. Our democracy depends on transparency, fairness, and the public's trust in the electoral process. Please act in the interest of all Texans.
