Affirm public info: I agree

Regarding: Congressional

Message:

I served in the Texas National Guard from 2014 to 2024 under the assumption that I was part of an organization that existed to protect our country constitution and defend individuals protected rights and free will.

The state legislature how ever has continued to diminish my rights as a parent by pushing religion into my child's schools, forcing me to pay taxes that now go to private schools. Diminishing my rights to access to THC if I should need it as well as legislating away my ability to utilize my god given free will.

Now the state is attempting to destroy my vote and my right to elect a representative in a fair and free election! I was once a Republican voter and worked on Republican campaigns for office and I have been forced to no longer support a party of authoritarian policies. But with the redistricting that is being attempted I will not have an alternative candidate with a reasonable chance of winning the election. You are attempting not only to rob Texans of their votes but to oppress them via legislation . This is not a Democratic Party, Libertarians party or Independent issue while it prevents them from winning their campaign, the issue is Texas voters voices being suppressed by an over bearing Republican government! I am ashamed of my service to Texas and this country for this government's authoritarian tactics and neglect of the public interest.

In conclusion stop embarrassing this state, stop being tyrannical and corrupt, and stop gerrymandering! No taxation with out actual

representation
