Regarding: Congressional

Message:

To: Redistricting Committee,

I find what is happening in Texas with attempts of redistricting appalling and a crime against "We the People". Why now.. well, we know why and so do all of you. This is a move from a president that wants to be an authoritarian along with his minions that sit in the White House, give us due respect with no more back room deals with drawing lines on the maps, we need transparency, rather than rushing in drawing unfair gerrymandering maps to only serve and benefit republicans.

Let's stop this insanity and let's get back in reclaiming our nation, our state, our democracy and constitution. We can no longer stand with the injustice happening to Hispanics that are being profiled, because they look the type, and deportation with immigrants that are being detained or deported without due process, we can no longer stand for cuts on funding social security, Medicare, Medicaid, SNAP etc. We were a nation once looked upon as the big brother in helping other countries and a powerful government of greatness with strong leaders..that is no longer the case.

We the People will now hold your actions in this matter- morally, ethically, criminally on how humanity has been treated, your decision should not be taken lightly, We the People will not forget when time comes in casting our votes.

I would like to mention Governor Abbott has done a disservice to the people that voted him in office. He has given the state of Texas on a silver platter to the little emperor that sits on his throne in the White House. Congressman Troy E. Nehls, who was sheriff in Fort Bend County has never held any town hall meetings for his constituents here in Texas while in office, which many county officials and constituents have asked for. I only know of one 55 + community, since he knows he'll never get rebuked in.

If you continue with your agenda with the unfair drawing of gerrymandering maps, remember California, New

York, Illinois and New

Jersey will follow suit and turn all their red districts in their states BLUE!!!

Thank you,

Gay Taylor
