Dear State legislators,

Please stop this nonsense. We just underwent redistricting in response to the 2020 census. We do not need to even consider redistricting until after the 2030 census. That alone, is a decent argument against what you are trying to do. Now for the ugly stuff. What you are doing is obvious cheating. In an effort to secure your control in the midterm elections. That is because you can't maintain that control any other way. Certainly not with popularity of your proposals. Increasingly, nobody is interested in your flavor of republican control. Nobody wants authoritarianism! If you go thru with this blatant election rigging, then I will make it my mission to make sure that every voter in this state sees you as well as I do. And your careers in politics will come to an end. Because you are clearly not interested in working for us, as much as you are working for a wanna be dictator. Positively shameful!
