State: Texas

Zipcode: [REDACTED]

Phone: [REDACTED]

Affirm public info: I agree

Regarding: Congressional

Message:

I wish for the Texas legislature to focus on passing policies that benefit Texans during this session instead of an unnecessary mid-decade redistricting. In the wake of historic flooding in Hill Country, I believe that this special session as a whole should focus on providing flood relief and funding for future infrastructure projects (specifically through warning systems, retention basins, and regulations for building in the floodplain.)

If nothing else, I urge for the pressing needs of Texans to be brought to the table and addressed BEFORE redistricting is to ensure the swift passage and signing of flood relief legislation.
