Message:

I think this attempt at pushing democrats out of office is an absolute horrendous misuse and abuse of our democracy. if you have to try so hard to get republicans in office maybe it's because no one wants them in office!! just know if this is pushed through and you do successfully gerrymander democrats out of office it will be such an abhorrent sign that our democracy is failing because of YOU. do better for the people and communities you serve not the lobbyists in your pockets.
