Message:

My name is Jesuorobo Enobakhare Jr. I am the President of the Alpha Phi Alpha Fraternity, Inc., Beta Tau Lambda Chapter and I am a constituent of Texas Senate District 23, Texas House District 101, and US Congressional District 30. Just a few months ago I was a victim of racially motivated redistricting by my Tarrant County Commissioners Precinct 2 being cracked and being packed into another precinct whereby my voting voice has been diminished by white conservatives who do not wish me, a black man, to have an equal voice in county government as they. That was a textbook example of racial gerrymandering which is illegal. Now I am faced again with a racially motivated redistricting to take away my voice and the voice of those who look like me in congress.

First I ask for a vote of NO in regard to this mid-decade redistricting that on the surface and in practice is nothing more than a racist act to take away the power of black people in at state that has the most black people in the country.

I ask that you use every tool available to prevent this action of illegal racial gerrymandering from taking place even if it means breaking quorum.

If with all your efforts this racist act of congressional redistricting must go forward I ask that this process be one of transparency, equity, and community engagement. It must include an independent review board made up of members the impacted communities and there must be intentional public comment from those impacted communities as well incorporated into the maps drawn.
