Regarding: Congressional

Message:

Dear Committee Members,

I'm reaching out to express my strong opposition to the redistricting proposals currently under review. These maps are not fair, and they don't reflect the diversity or the will of the people. Instead, they appear to be designed to diminish the influence of Black, Latino, immigrant, and working-class communities across the state.

We've seen these kinds of power plays before. This redistricting effort falls right in line with Donald Trump's ongoing attempts to distort democratic systems in favor of political gain. People are waking up to what's happening and we are not going to stand by while our communities are carved out or broken up for partisan benefit.

What's being proposed is not just unjust it's dangerous. People are paying attention, and your actions now will have long-term consequences. If you choose to ignore the voices of the public, know that you will be held accountable at the polls. These choices matter, and the people will remember.

Redistricting should uplift communities and ensure representation, not silence them.

Do the right thing.

Jesus Martinez
