My name is Judy Lugo and I live in Congressional Dist 16

The Texas Legislature has the ability to help the citizens of Central Texas with flood relief. It is very disappointing that this is not on the top of the list, you represent you constituents and should remain focused on that.

I am very concerned about the lack of transparency and the need to do this now. I am currently on Social Security and worry about how this will impact others like me. Many other Texans are struggling and worry about Social Security Cuts, health care cuts, how will they feed their children.

I ask that you not redistrict at this time and remember you represent your constituents
