Message:

We need to reduce political gerrymandering in this state and country. Not enforce and create more of it. Using our time and resources on this endeavor in a non-Census year is a smack in the face to every citizen who has been dealing with all of the chaos of the world recently.

That said, if we must do so, gerrymandering should be reduced so that our representation accurately reflects the needs and wishes of our population. Anything less is a violation of the spirit of the oaths of office that you have taken, and a direct source of harm to Texas citizens and interests.
