Message:

Where are the maps so that there can be proper scrutiny of the impact? It's un-Texan and un-American to be asking for testimony and feedback on maps no one has seen, including elected officials. That lack of transparency only underlines the fact that these maps and this bill are only intended to do the bidding of the President. It is a lessening of your own power. The people of Texas elected you to do what's best for the State. And you are ceding your power to the Federal government, including the DOJ and the president.

It's shameful and you can and should do better.
