Message:
To the Texas Senate,

In no time in history has either party implemented a special session in order to redistrict after only 5 years. All moral leaders from the past Texas Legislature have never attempted what you are about to attempt. You will have to live with yourself, knowing that you are willing to do the bidding of the corrupt leadership of the U.S. government. You will also have to accept the consequence, those who put their seat above the law will lose that seat in disgrace. All of your constituents will know you are a cheater, you put your seat above your principles. You make up the laws as you see fit, it is a game to you. Your parents would be embarrassed of you and some day your children will know what you did. You put your self interest above the people you are supposed to be serving. Remember, God doesn't just work on Sundays, he is watching. You might pray and remember to listen closely to the answer, because it sure isn't a message to put yourself first.
