Regarding: Congressional

Message:

Honorable Senators

I write to strongly oppose the proposed US Congressional redistricting effort. I am a life-long Republican and resident of TX-7. Unfortunately in the 2021 redistricting, TX-7 was effectively gerrymandered. Our nation faces many significant governance challenges today that require sensible and bi-partisan policy making to successfully address our future. This sensible policy making has been stymied by the current Congress. The current makeup of the US House reflects this - of 435 seats only 40-70 (9% to 16%) are currently electorally "competitive" resulting in an entrenched and ineffective Congress.

The currently proposed TX redistricting efforts are inappropriate and to date have been conducted in a rushed and non-transparent manner. This effort risks further partisan polarization to the detriment of our nation.

I strongly urge the Governor, Committee and the Texas Legislature to cease this effort and defer any redistricting until after the next US Census.

Kenneth M. Fisher
