Message:

I oppose the proposal to do mid-decade redistricting. All citizens, regardless of Party, deserve fair and equal representation. Attempting to increase the number of Republican seats while they already hold approximately 66%, unfairly panders to the President while disregarding the citizens of Texas. Please remember that our government is supposed to be "by the People" and "for the People". This President will only be in power for another 3.5 years, but "We the People" will be here for the duration.
