Message:

The time has come for our elected officials to do right by your constituents. It's extremely disheartening that our Governor has neglected to provide a special election for congressional district TX-18, yet he has time to call a special session to carry out President Trump's unconstitutional demands!! Texas Governor Greg Abbott and Texas Attorney General Ken Paxton "the congressional districts TX-09, TX-18, TX-29, and TX-33 should not be subjected to the unconstitutional racial demands of President Trump.

We ask that ALL of our elected officials have a chance to see the proposed revisions of the state's congressional district map before any votes are held to attempt to redraw the congressional map in the middle of the decade.

Kind Regards,  
Kimberly A. Lee
