Message:

This attempt to further gerrymander the state of Texas is absolutely pathetic. While already an illegal practice, republicans cannot help but once more use this technique to squash the voice of the people you claim to represent to bend the knee to an authoritarian and tyrannical government and the billionaires who bankroll the entire ordeal. With each disregard for OUR VOICES, you dig the grave of a free state and country. You cannot continue like this forever. We see you. We will do everything we can to combat your complete disregard for the principles of freedom and the pursuit of life, liberty, and the persuit of happiness. The more you slice up our map, the more it looks like the swirling vortex of hell you seem so keen on creating. So, mission accomplished in that regard, I suppose.

You should be ashamed of yourselves.

We all are.

Disrespectfully,

Your constituents
