Message:

My name is Leah Mueller and I have been living in Houston, Harris Ct Texas for almost 33 years. I am writing today to request that the redistricting not take place until the new Census is given. I vote in every election I am able to vote in and believe it will change the race for candidates in November to redistrict now. I also am very proud to be a Texan and believe that the Federal Government should not dictate what is placed into our special session. I do not believe this is a Democrat or a Republican issue but a Texan Issue.
Please do not redraw our districts now!
