Message:

Failing the people of Texas once again by not focusing on flood control and making us all hurry to try and stop the redistributing effort is beyond moral failure. Honor the lives of the dead for once, lost to political failures as much as the change of the climate! Focus on flood control and stop trying to cheat Texas voters with redistricting! We want safe homes and not forever politicians cheating their way into interminable office. Cheaters and lying politicians will only continue to erode communities just like failing to address our safety erodes and destroys communities. The pace of folks moving to Texas is already slowing as the truth is revealed that politicians will let you die here if they can stay in power. Stop destroying our state with redistrict corruption!
