Regarding: Congressional

Message:

Cracking and packing districts may not result in the additional five seats. I plan to spread the word about the lack of transparency, legislators picking their voters and failure to give citizens decent notice for public comment and limited locations for the public to voice their concern. The organizations I work with plan to get the vote out on steroids in November 2026. There will be door open to get voters out in competitive districts. We will flood the capital when the maps are presented.
