Message:

Redistricting mid-census is not required. Resources expended should instead be devoted to solving real problems. Like early warning systems for floods and working with the federal government to develop a worker visa program. I believe congressional districts should be allocated by county instead of gerrymandered to keep one political party in power. Such gerrymandering creates a sense of powerlessness in voters. If one party is going to win a district based on manipulating the vote, why vote at all?

This mid-census effort is clearly manipulation by the president. Not everyone in Texas voted for him, and not everyone should be subject to his wishes.

I object to this initiative and hope legislators will remember that every voter should have opportunity to participate in our elections.

God bless all of you. I pray for you.
