Date: 2025-07-23  
First Name: Meghana  
Last Name: John  
Title: N/A  
Organization: Self  
Address: [REDACTED]  
City: Houston  
State: Texas  
Zipcode: [REDACTED]  
Phone: [REDACTED]

Affirm public info: I agree

Regarding: Congressional

Message:

If the districts drawn don't represent the population, politicians will support issues the majority of the population opposes of. This directly contradicts democracy. Residents, especially the people of color this legislation would be blocking, lose their right to a voice. For example, many people are losing their healthcare, which is a very unpopular decision and disproportionately affects people of color. For many people, voting is their primary political voice. They have the human right to use their vote, but this legislation takes it away from them. The stakes are so high that your constituents could die off under your guidance. I call on all members to be transparent about their decisions and explain to the people why they chose to cut off their voice. I then, most of all, call on members to draw a fair map, not the radicalized one being proposed. I want my voice, and I want all my fellow Texans to have theirs too. I hope you consider this testimony.
