Title: N/A

Organization: Self

Address: [REDACTED]

City: Houston

State: Texas

Zipcode: [REDACTED]

Phone: [REDACTED]

Affirm public info: I agree

Regarding: Congressional

Message:

I am third generation Texan and I am very opposed to this rushed Redistricting of our state to meet people's needs other than our own here in Texas. As Texans we are more unified than most other states and you all are creating a divide in our state that we can't tolerate. You can not silence peoples feelings and views by changing district lines, no one is going to win in playing the political squid games our country is headed towards. As a voter who has voted republican and democrat on all levels of elections here, you as representatives of our great state can not deny the diversity our state holds. Bipartisan governing helps keep a balance that our country has drastically lost.

Rest assured that this obvious Gerry mandering is just furthering the realization of the issues with our current administration on all levels and is making many people start to change their minds on things.
