Message:

It is time for state and federal legislators to stop playing games, stop acting in their own or donor interests, or voting on matters merely to please special interest groups, or the President. These people were elected to represent the citizens in our states and country, and our interests should come first. To discuss or begin redistricting only 5 years since the last census is ridiculous and not warranted. We have not been shown any hard evidence that justifies or shows population shifts that would warrant a drastic measure only 5 years after the last census. I am so tired of the politics of our political parties and their actions that are so self serving. It's time to stop. Respectfully
Paula Soileau
