Message:

This effort feels like unequal representation in government. This appears to be an effort for one group to have an unfair advantage

over another. This does not feel like a united effort towards democracy. Stop the divisive rhetoric and the bullying.

Represent all the

people in the state of Texas. Our governor already has a disability it now appears he has additionally become

spineless. Where in your

oath of office did you swear allegiance to the President. We the people of Texas thought your allegiance would be to ALL of us.

Whatever your fear is of the President please pray about it. Lying, manipulating and cheating is not the way of a righteous man.

Whatever your political endeavors are you don't want to sell your soul to anyone to accomplish it. I ask that this special session be

cancelled until after the next 6 years. Until after our next census and then we can revisit it.
