Affirm public info: I agree

Regarding: Congressional

Message:

Thank you to Chairman King, Vice Chair Creighton and the members of the committee for the opportunity to address the Senate Special Committee on Congressional Redistricting. I was invited to testify to the committee on July 29, 2025 and logged in as instructed but due to family obligations was not able to wait until called.

I would like to make a comment. According to MacroTrends, the population of Texas has increased by 1.7 million people from 2020-2024 and over 2 million people from 2019-2023. This is a 5.2% increase compared to 2% increase in the United States during the same period. This increase was due to people relocating from other states and the invasion along the southern border during 2020-2024.

Because of this abnormal influx of people to the state, I feel it is imperative the state of Texas conduct a redistricting as opposed to waiting until the 2030 census.

Please put partisan motives aside and do what is right for Texas and redraw the congressional districts which truly reflect the makeup of Texas fairly.

Thank you
Russell Ubinger
