Phone: [REDACTED]

Affirm public info: I agree

Regarding: Congressional

Message:

In reference to the HB 4 in the special session on redistricting I have been a resident of the Golden Triangle for over 28 years, and I am a healthcare provider that has served this community for over 14 years. I've already been redistricted twice in my voting life time, and my US Representative lives in Lake Jackson, Texas with no similarities to me and my region at all. The amount of disconnect my neighbors and I have because we have different Reps to be able to come together to get state resources has been super detrimental to our region following multiple natural disasters we have endured. It is important the maps to be fair and ungerrymandered. This mid decade redistricting violates all precedent and disproportionately effects my community which has a higher minority populations that are being gerrymandering out of a voice. All of the republican controlled mapping and redistricting has violated the civil rights voting act of 1965. These maps were okay for the 2024 presidential elections but now all of a sudden they are "racially driven." Please consider the people you are silencing by this MAGA agenda driven control for power they

have not earned. The people are tired guys, and you should learn and have moral courage to be on the right side of history.
