Hello, my name is Sara I live in 78619. I am testifying on the Legislature's attempt to redistrict our congressional districts mid-census. I am strongly opposed to these efforts. This brazen move by the Governor and the DOJ to increase Republican representation in the U.S. House by taking it away from communities of color is shameful. It is blatant racial discrimination. Gerrymandering is anti-democratic.

How districts are drawn affects every political issue, from the economy to healthcare to public education. If politicians are elected from districts that don't reflect the population, you end up with situations where politicians support policies that the vast majority of people oppose, or they won't support policies that the vast majority of people support. I am pleading with you to stop manipulating maps for your own partisan gain. Put principle over party, and reject this effort to redistrict in Texas.
