Message:

I am opposed to the current rushed effort to redistrict the Texas Congressional districts so that 5 additional Republican seats can be assured in Congress at the request of the President. We should continue to follow the process of using census data every 10 years and having adequate time for careful and transparent deliberations and public input.

This redistricting effort is being done in a rushed and opaque manner with limited opportunities for public input. Public comment on actual maps should be done with both adequate time for public review and public comment.

I strongly urge the special session to focus on fair representation for all Texans in Congress. This means representatives are chosen by earning the votes of the people in their districts. I do not want my representatives chosen for me. Anything less dilutes and suppresses my voice and the voices of other Texas voters and weakens our democracy.
