Affirm public info: I agree

Regarding: Congressional

Message:
Good Evening,

I am writing this to voice my concerns about the governor trying to redraw the congressional map due to the republicans trying to gain more seats. This will affect the minorities more than anything. Our voices will no longer be heard. This is a power move by the republicans and they are not doing what is best for the people especially the ones of color. I do not agree with what is happening. I ask that you advocate and vote on my behalf to stop all efforts towards this issue.

Best regards

Shania Freeland
