Affirm public info: I agree

Regarding: Congressional

Message:

Hello.

I would like to let my congressional members know to please do not mess with the redistricting of the state of Texas. This will cause undue harm to many voters and have unequal representation for people in certain areas. We voted you all in to stand up for what was right, just, fair to all the great people of state. So, please do not take this ploy from the national government of hatred and misrepresentation for all Texans and those who live in this wonderful country.

STOP the redistricting and let all who have the right to vote, vote in a democratic manner not one for a certain party of people to have an advantage.

Thank you.
