Message:

I would like to know why half of arlington is in the same congressional district as abeline even though Abeline is 2 hours away? Do the people of arlington not deserve our own effective representation? Our district has already been gerrymandered in order to dilute the voice of the people of Arlington. Our current representative Roger Williams does not give voice or effectively represent the people of color that are in his district, he is just another mear puppet in the machine. I am here today to give a voice to the community you have silenced in the past, but will no longer sit quietly as this governmental body continues to discriminate against us.

Already Texans are being taxed and have no representation. I want to remind each person sitting in front of me that they do not represent Donald Trump, they do not represent Gregg Abbott, they do not represent the corporate donors, the job is to represent the people of Texas. If you are incapable of doing your JOB CORRECTLY, you will be replaced.

Currently You are being urged to redistrict our state by our governor Gregg Abbott and president Donald trump so that a certain party can have an unfair advantage during midterms, all this at the expense of the very people you vowed to represent. Our state government is being run by

cowards ready to sell us to the highest bidder. This deeply flawed process continues the pattern of passingly racially gerrymandered maps here in Texas. The rushed hearings along side the lack of proposed maps provided to your constituents, makes it clear attempt to gerrymander our counties further. It is deceptive, cowardly and outward discriminatory. You all should be ashamed.
