Affirm public info: I agree

Regarding: Congressional

Message:

Texans have the right to fair and equal representation that's achieved through a thoughtful, transparent redistricting process that allows meaningful public input, so I appreciate the opportunity to comment.

It is unusual that creating new district lines is happening only 5 years after the last changes. Republicans are 40% of the Texas population and yet already enjoy 65% representation in Congress. President Trump is asking for Gov. Abbot to deliver 5 more Republican leaning districts which will mean 5 districts will be taken from the Democratic voters, even further skewing our democracy by the people.

I prefer lines drawn to be fair and to protect, not destroy minority voting rights. I want our congressional lines to respect county lines and city boundaries, and not be drawn in such a way that those in the same district are sometimes hundreds of miles apart from each other.

I would like an end to gerrymandering (by both parties). I want politicians to win based on how they address the real concerns of the citizenry.

Thank you.
