Affirm public info: I agree

Regarding: Congressional

Message:

Districts are redrawn every 10 years in relation to Census numbers. This year President Trump wants Texas to turn in 5 more Republicans to ensure a Republican majority. I believe this will hurt brown and black districts and possibly mine. I believe this is unfair and unjust for a proper election. Gregg Abbott is going along with Trump's wishes. I vote in every election and I like my Democratic Congresswoman very much. Luckily I kept her when the maps were redrawn four years ago. She works hard in Washington for her constituents. This gerrymandering does not allow for free elections for everyone and I definitely oppose it. Sylvester Turner's district did not have the opportunity for a special election when he went to Washington. I believe there usually is an election when this occurs but these people did not get to have one. I love Texas and I believe we are better than this and can sponsor great leaders in Washington but this is truly in my opinion unfair and unjustified.
