Message:

District lines should represent the people who live there and allow us to be heard, not silenced. Redistricting should be about fair representation, not political advantage. When maps are drawn in ways that divide communities or dilute the voices of voters it undermines trust in our democracy.

I urge the redistricting committee to center the needs of the people, not partisan interests. Voters should choose their leaders, not the other way around. Please make sure the final maps reflect the real Texas: diverse, growing, and deserving of equal representation.

Thank you for your consideration.
