Regarding: Congressional

Message:

I disagree with this redistricting. The party in charge created these districts years ago and are now trying to gerrymander further. This will not help Republican Party, the backlash of democratic states also redistricting, along with inspiring more democratic voters to go to the polls sabotages your plan. This is just a bad idea all around. Your focus should be on helping the citizens in your state and inspiring them to vote for you, not rig the system. We see, we are watching, we vote and encourage others. Make good choices
