Message:

My name is Toni Clark from the 30th congressional district.

I never thought that I would ever have to write about racially motivated redistricting but I know that I must do so.

And With that being said ..

I am extremely frustrated and disappointed that hearings have been called to hear residents comments about redistricting that is targeted primarily in the black communities such as mine. This redistricting could eliminate my voice and others from having our concerns and issues represented especially on the federal level

My congresswoman Jasmine Crockett has done a fantastic job successfully representing my voice on many issues and I am grateful to have her in office .

I think these hearings are racially motivated and shameful . And it is obvious, your intent is to deliberately attack our communities, our families, our children. Your goal to remove voting representation from the black residents is wrong to those of us who live in my community and want representatives who also reflects our values.

If this was reverse , I would like to know how would you feel to possibly have your voting representation taken away.

I hope and pray what I have communicated is a call to action against the wrong what you are trying to do. God help you.
